Work experience

October 2020-present

PhD in Experimental Medicine

University of Pavia, Pavia, Italy

Clinical research focused on systemic vasculitides

February-June 2019

Clinical Fellowship focused on the definition of different levels of disease activity in ANCA-associated and their impact on long-term damage accrual.

Department of Internal Medicine, National Referral Center for Rare Systemic and Autoimmune Diseases, Hôpital Cochin, Paris Descartes University, Paris 5, Paris, France

November 2016-November 2020

Qualifying Specialization School in Rheumatology

University of Pavia, Pavia, Italy

Department of Internal Medicine, Section of Rheumatology

Final dissertation: *"Remission and low-disease activity State in patients with granulomatosis with polyangiitis and microscopic polyangiitis: prevalence and Impact on damage accrual"*.

Full graduation: 50/50 cum laude.

March-October 2016

General practitioner locums

Distretto Valsesia, ASL VC, Italy

2009-2015

MBChB

University of Eastern Piedmont, 28100, Novara (No), Italy

Final dissertation: *"Whipple's disease: a systemic condition with a genetic and infectious background. An epidemiologic study of prevalence in the general population and an analysis of complications risk"*.

Full graduation: 50/50 cum laude.

Education

2009

Scientific High School Diploma

Liceo Scientifico "A. Avogadro", 13100, Vercelli (Vc), Italy

Cavagna. *Anti-Ro-Positivity Effect on Clinical Characteristics and Mortality in a Single-Center Cohort of Antisynthetase Syndrome Patients*. Annual European Congress of Rheumatology, EULAR 2020 E-Congress.

S. Monti, P. Delvino, C. Klersy, G. Coppa, A. Milanesi, C. Montecucco. *Factors influencing patient-reported outcomes in ANCA-associated vasculitis*. Annual European Congress of Rheumatology, EULAR 2021 Virtual Congress.

P. Delvino, A. Milanesi, F. Brandolino, S. Monti, C. Montecucco. *Significant damage occurs early in the course of eosinophilic granulomatosis with polyangiitis and is mainly due to disease-related sequelae*. Annual European Congress of Rheumatology, EULAR 2021 Virtual Congress.

Practical skills

Good practical skills in musculoskeletal ultrasound, temporal and axillary arteries ultrasound, nailfold videocapillaroscopy, intra-articular injections and minor salivary gland biopsy.

Additional information

Collaboration with "Groupe Français d' Étude des Vascularites" (GFEV) focused on the analysis of different disease activity levels and treat-to-target approach in ANCA-associated vasculitides.

Junior Author of EULAR Online Course on Rheumatic Diseases 2020-2021, Module 24, "ANCA-Associated Vasculitides and Polyarteritis Nodosa".

Participation to various national conferences and courses focused on different rheumatological aspects

Pavia, 02/11/2021
